Photo Albums

Photo	Title	Description	Comments
	Study of Caelan		
	Female Hair		
	Female Face Textures		
	Imperium		
	Edited Photo's		
	City Of Angels		
	Lux Faces		
	Test of Lux Render	Compares renders made with Lux to those made with Daz3d	
No photo	Pictures inspired by Paul's Fey Game		
	Marbles..	Various works in progress for October competition entry.	
	Random	Some other random pictures that don't fall into any meaningful category. Most of them are experiments with lights.	
	Catnapped	This was a series of renders in order to test the difference between a simple render, ray traced and shadowmapped images. The last picture was just playing with the textures and colours.	
	Competition	My various entries for the Dreamlight monthly competitions.	
	Trapped	Was playing with the Morph editor when creating this. I thought I'd found a neat way of applying one specific genders textures and morphs to another. But as it turned out the snakeman morph and textures already had an option for female!
